

濟陽堂左第七代紀念部

This genealogy of the Chor (a.k.a. Jor) family was compiled by my grandfather probably in the 1930s or 1940s in Canton city, south China. The family line, which began there in the mid-17th century after moving south from the far north, is flourishing today.

Some updating was made in the early 1980s. The front of this genealogical record is shown here.
